## STOCK PRICES ARE TEMPTING

Falling prices on the stock market tempted enough investors yesterday and today to make the transactions both between boards and at the session of the stock exchange this morning of respectable size.

Between boards there was some demand for bonds, evidence that some people have plenty of faith in the ultimate strength of Hawaiian sugar securities.

The stock sales were in small blocks usually, and at bargain prices, the general trend being below yesterday's quotations. A good deal of Oahu Sugar sold from 40.25 downwards to 39, and Ewa dropped from 33 to 32.50, a number of small orders being filled. McBryde was in some demand at 9. Waialua closed at 129.50. Oahu was bought sparingly at 7.75 between boards, the board quotation being 7 bid and 7.50 asked.

The bond sales were in Hilo Extension sixes at 95 and McBryde sixes at 100.

## PRESENCE OF LEPER IN TACOMA CAUSES SCARE AND SENSATION

TACOMA, Wash., Feb. 12.—Dissemination over the presence of John Ruskin Early, the leper, at Summit View, a Tacoma suburb, arose so high today that parents in the neighborhood would not permit their children to attend school. They said at least two children had been indirectly exposed to the disease. These two pupils were sent home, with instructions to visit the county physician and obtain certificates.

The children are Charles Wendt, brother of Claire Wendt, a girl of 17, who was employed to assist Mrs. Early in housework, and the little daughter of William Bittner, who had worked for Early.

**Commissioner Makes Address.**  
County Commissioner Martin visited Summit View today and made an address at the depot, stating every precaution had been taken and that Early and his family had a right to live. The board will take formal action Thursday and hear the protests. The county will send lumber to treat us as they do."

Summit View tomorrow and several workmen, who will construct a three-room cottage for the leper, 300 feet from the home where his wife, children and mother-in-law will live. Around it will be a double wire fence, enclosing one acre. Early will be kept inside the enclosure.

**Mrs. Early Protests.**  
"Even if my husband did have it, there would be no danger of contagion," said Mrs. Early today. "He has been very, very careful. It makes me feel terrible to think that all of these people who used to be such good friends have suddenly turned against us. Why, they run past our house when they go by. They don't want to even speak to us now. And not one of them can ever say that he ever came in contact with my husband or with anything my husband ever touched."

"We don't know whether John has it. We hope to God that he has not. But whether he has or not, it is most inhuman and unchristian for them to treat us as they do."
